SEH WOW^{TALK} SERIES

presents

Gina Adam, Electrical & Computer Engineering
Memristor Devices as Artificial Synapses for Neuro-Inspired Computing

R. Alexander Pyron, Biological Sciences
Undiscovered Biodiversity: Describing New Species of Reptile and Amphibian from Around the World

Luyao Lu, Biomedical Engineering
Soft Optoelectronics for Assessment of Biological Systems

Date/Time: Wednesday, April 3, 2019 - 4:00pm - 5:00pm

Location: Science & Engineering Hall, B1220

All are invited to the SEH WoW TALK (What's our Work) Seminar Series. These short talks (15 minutes each) are designed to introduce faculty and students to current and exciting research projects undertaken in labs in the SEH, to initiate discussion, collaborate, share expertise, and to promote research performed in the SEH and at GW.

Please bring your colleagues to join us and network with each other.
Refreshments will be served.
