

SEH WOW^{TALK} SERIES

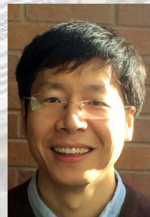

presents

Discovering Molecular Signatures of Human Diseases via Mass Spectrometry
Ling Hao, Chemistry

Exploring the Micro- and Nanoworld with the Atomic Force Microscope
Santiago Solares, Mechanical and Aerospace Engineering

On the Discovery of Feature Importance Distributions: An Overlooked Area
Yuxiao Huang, Data Science

Weds, November 6, 2019 - 4:00pm
Science & Engineering Hall, B1220

All are invited to the SEH WoW TALK (What's our Work) Seminar Series. These short talks (15 minutes each) are designed to introduce faculty and students to current and exciting research projects undertaken in labs in the SEH, to initiate discussion, collaborate, share expertise, and to promote research performed in the SEH and at GW.

Please bring your colleagues to join us and network with each other.
Refreshments will be served.
