

WOW^{TALK} SERIES

presents

Almost everything you think you know about generations is wrong

David Costanza, Organizational Sciences

Modeling-driven discovery: From ice nucleation to quantum materials

Tianshu Li, Civil and Environmental Engineering

Synthesis of Molecular Pockets for Applications in Biology and Medicine

Joseph W. Meisel, Chemistry

Weds, February 3, 2021 - 4:00 pm
via Zoom

All are invited to the WoW TALK (What's our Work) Seminar Series. These short talks (15 minutes each) are designed to introduce faculty and students to current and exciting research projects, to initiate discussion and collaboration, and to share expertise at GW.
