

# WOW<sup>TALK</sup> SERIES

*presents*

## **Microfluidics and Biosensors for Personalized Medicine**

**Zhenyu Li, Biomedical Engineering**

## **The End of the Story Matters: Implementing supportive (palliative) care for people with kidney disease**

**Dale Lupu, School of Nursing**

## **Aerosols moving, where we work**

**Mark Reeves, Physics**

**Weds, March 3, 2021 - 4:00 pm**  
**via Zoom**

All are invited to the WoW TALK (What's our Work) Seminar Series. These short talks (15 minutes each) are designed to introduce faculty and students to current and exciting research projects, to initiate discussion and collaboration, and to share expertise at GW.
