The Global Business & Microfinance Internship Program in Nepal

The Global Business & Microfinance Internship Program is an opportunity for students to work with top tier institutions associated with The Grameen Bank. Students live and work in Nepal, giving them the chance to gain global and real world experience. Past interns have actively engaged in the local community while conducting research on various policy ideas to promote entrepreneurship and microfinance opportunities in Nepal.

This program is made possible through a partnership between the Grameen Bank & Trust and the George Washington University, Elliott School of International Affairs. Both undergraduate and graduate students are encouraged to apply. Applications will be accepted on a rolling basis for the summer, fall, winter, and spring periods.

Apply at <https://blogs.gwu.edu/gw-grameen>
