

Check. Choose. Go.SM

When you need care, call your primary care physician or family doctor first.

Your physician has easy access to your records, knows the bigger picture of your health and may even offer same-day appointments to meet your needs. When seeing your physician is not possible, however, it's important to know your quick care options to find the place that's right for you and help avoid financial surprises. Compare your choices today at uhc.com/checkchoosego.

Freestanding ERs

Many people have been surprised by their bill after visiting a freestanding emergency room (FSER). FSERs, sometimes referred to as urgency centers, typically bill at ER rates (or higher) and can be \$1,500 more than an Urgent Care Center. Neither located in nor attached to a hospital, FSERs are able to treat similar conditions as an ER but do not have an ER's ability to admit patients.

Ask before you enter:

- Is this an urgent care center or an ER?
- Is this facility a network provider?

Virtual Visits are not an insurance product, health care provider or a health plan. Unless otherwise required, benefits are available only when services are delivered through a Designated Virtual Network Provider. Virtual Visits and Urgent Care visits are not intended to address emergency or left-threatening medical conditions and should not be used in those circumstance. Services may not be available at all times or in all locations. The Designated Virtual Visit Provider's reduced rate for a virtual visit is subject to change at any time.
