

THE FOURTH INTERNATIONAL CONFERENCE ON SMART GRID SYNCHRONIZED MEASUREMENTS AND ANALYTICS

SGSMA 2024

May 20-23, 2024

George Washington University, Washington DC, USA

The International Conference on Smart Grid Synchronized Measurements and Analytics 2024 (SGSMA 2024) is the leading forum for disseminating the latest research on Synchronized Measurements and Analytics in Smart Grids. SGSMA brings together leading researchers and developers from academia, research and industry from all over the world to facilitate innovation, knowledge transfer and technical progress. The attendees will get the opportunity to present their findings, learn about the recent research results from others, and be able to network with some of the leading luminaries, academics, researchers and practitioners in this area.

TOPICS OF INTEREST

- Theory and fundamentals of synchronized measurements
- Synchronized sampling and synchronized phasor calculation
- The time reference and clock sources used for synchronized measurements
 - Time dissemination techniques
 - Synchronized measurement instrumentation
- Calibration systems for synchronized measurement instrumentation
 - End-to-end calibration of synchronized measurement systems
- Procedures for certification of synchronized measurement devices and systems
- Acceptance, commissioning and field testing of synchronized measurement systems
- Applications of synchronized measurement instruments to critical infrastructure systems
 - Modeling and simulation of synchronized measurements
 - Data analytics for power system applications of synchronized measurements
- Implementation and design of synchronized measurement devices and systems
- Bad data detection and troubleshooting tools for synchronized measurement systems
- Metrics for performance evaluation of synchronized measurement applications
 - Situation awareness systems based on synchronized measurements
- Use of synchronized measurements in distribution and the grid "edge" applications
- Synchronized measurements in wide-area monitoring, control and protection (WAMPAC)
 - Educational issues and curriculum related to synchronized measurements
 - Cybersecurity issues and solutions for synchronized measurement systems
- The next generation of EMS and DMS systems based on synchronized measurements

IMPORTANT DEADLINES

- Paper submission opens: May 01, 2023
- Full paper submission: Oct. 31, 2023
- Tutorial/Workshop/Panel proposal: Oct. 31, 2023
- Notification of acceptance: Feb. 09, 2024
- Student travel grant application: Mar. 01, 2024
- Ph.D. dissertation competition: Mar. 01, 2024
- Student programs notification: Mar. 15, 2024
- Final paper submission: Mar. 01, 2024
- Early bird registration: Apr. 15, 2024
- Regular registration: May 15, 2024

SGSMA 2024 ORGANIZERS

Conference Chairs:

Chair: Anurag Srivastava, West Virginia University
Co-Chair: Matthew Gardner, Dominion Energy

SGSMA Association Board:

Chair: Mladen Kezunovic, Texas A&M University, USA
Mario Paolone, EPFL, Switzerland
Carlo Muscas, University of Cagliari, Italy
Lars Nordstrom, KTH, Sweden
Hamed Mohsenian-Rad, UC Riverside, USA
Wanda Reder, Grid-X Partners LLC, USA

SGSMA Association:

Jaime Cepeda, CENACE, Ecuador
Joe H. Chow, Rensselaer Polytechnic Institute, USA
Evangelos Farantatos, EPRI, USA
Antonio Gomez Exposito, University of Seville, Spain
Liisa Haarla, Fingrid, Finland
Kevin Jones, Dominion Energy Virginia
Uhlen Kjetil, NTNU, Norway
Petr Korba, Zurich University of Applied Sciences, Switzerland
Yilu Liu, University of Tennessee, USA
Chao Lu, Tsinghua University, China
Antonello Monti, Aachen University, Germany
Marjan Popov, Delft University of Technology, The Netherlands
Suresh Chandra Srivastava, IIT Kanpur, India
Glauco Nery Taranto, Federal University of Rio de Janeiro, Brazil
Vladimir Terzija, Newcastle University, UK
Alexandra Von Meier, UC Berkeley, USA
Andrei Zhukov, SO UPS, Russia

Organizing Committee:

Chair: Payman Dehghanian, George Washington Univ., USA
Co-Chair: Virgilio A. Centeno, Virginia Tech, USA
Contact: SGSMA2024@gwu.edu
Nenad Uzelac, G&W Electric, USA
Mark McVey, Dominion Energy, USA

Tutorial/Panel Coordinators:

Jaime Cepeda, Escuela Politécnica Nacional, Ecuador
Asja Derviskadic, Swissgrid AG, Switzerland
Anita Oommen, ESKOM, South Africa

Technical Program Committee

Chair: Peter Palensky, TU Delft, Netherlands
Co-Chair: Guglielmo Frigo, METAS, Switzerland
Mihaela Albu, Politehnica University of Bucharest, Romania
Markos Asprou, University of Cyprus, Cyprus
Sadegh Azizi, Leeds University, UK
Tamara Becejac, AVANGRID, US
Tianshu Bi, North China Electric Power University, China
Steven Blair, Synaptec, UK
Jaime Cepeda, CENACE, Ecuador
Lei Chen, Tsinghua University, China

Joe Chow, Rensselaer Polytechnic Institute, USA
Jeff Dagle, Pacific Northwest National Laboratory, PNNL, USA
György Dán, Royal Institute of Technology KTH, Sweden
Asja Derviskadic, Swissgrid AG, Switzerland
Anamika Dubey, WSU, USA
Evangelos Farantatos, EPRI, USA
Antonio Gomez Exposito, University of Seville, Spain
Zhenyu Huang, Pacific Northwest National Laboratory, PNNL, USA
Innocent Kamwa, Laval University Québec, Canada
Vassilis Kekatos, Virginia Tech, USA
Mladen Kezunovic, Texas A&M University, USA
Petr Korba, Zurich University of Applied Sciences, ZHAW, Switzerland
Chandan Kumar, POSOCO, India
Ashok Kumar Pradhan, IIT Kharagpur, India
Yilu Liu, University of Tennessee, USA
Hao Liu, North China Electric Power University, China
Stefano Lodetti, National Physical Laboratory, UK
Chao Lu, Tsinghua University, China
David Macii, University of Trento, Italy
Sakis Meliopoulos, Georgia Tech, USA
Hamed Mohsenian-Rad, University of California, USA
Antonello Monti, Aachen University, Germany
Panos Moutis, Carnegie Mellon University, USA
Carlo Muscas, University of Cagliari, Italy
Matija Naglic, TenneT, Netherlands
Lars Nordström, Royal Institute of Technology KTH, Sweden
Sarman Nuthalapati, Texas A&M University, USA/India
Anita Oommen, Eskom, RSA
Anamitra Pal, Arizona State University, USA
Mario Paolone, Swiss Federal Institute of Technology of Lausanne, EPFL, Switzerland
Patrick Panciatici, Réseau de Transport d'Electricité, RTE, France
Lorenzo Peretto, University of Bologna, Italy
Dario Petri, University of Trento, Italy
Ferdinanda Ponci, Aachen University, Germany
Marjan Popov, Delft University of Technology, The Netherlands
Athula Rajapakse, University of Manitoba, Canada
Reza Razzaghi, Monash University, Australia
Christian Rehtanz, Technical University of Dortmund, Germany
Artis Riepnies, Pacific Northwest National Laboratory, PNNL, USA
Renata Rubesa, Hops, Croatia
Ankush Sharma, IIT Kanpur, India
Di Shi, New Mexico State University, USA
Shenxing Shi, Tsinghua University, China
Aaron Snyder, Enernex, USA
Suresh Chandra Srivastava, IIT Kanpur, India
Sara Sulis, University of Cagliari, Italy
Glauco Nery Taranto, Federal University of Rio de Janeiro, Brazil
Vladimir Terzija, Newcastle University, UK
Gilles Torresan, RTE, France
Sergio Toscani, Politecnico di Milano, Italy
Kjetil Uhlen, NTNU, Norway
Luigi Vanfretti, Rensselaer Polytechnic Institute, USA
Mani Venkatasubramanian, Washington State University, USA
Bin Wang, Tsinghua University, China
Yang Weng, Arizona State University, USA
